

PLUMPTON ESTATE

Summer 2010 Wine Portfolio

This is the current list of wines produced by Plumpton Estate. We are wholly unique in the UK wine industry as our wines are crafted by students on BSc and Foundation Degree Wine Production courses under the guidance of our Vineyard Manager and Winemaker.

We also represent a small number of wines produced by ex-students, The Alumni Collection, and sourced by our Wine Business students. One red is featured in this list although there are a couple of other Alumni wines available in extremely limited quantities, please ask for details.
